

# Illinois Premise Alert Program Act

On August 28, 2009 the Illinois Premise Alert Program (PAP) Act became effective in Illinois. The PAP is a safety program that supports individuals living with disabilities as well as Police Officers responding to calls at a specific address.

The PAP allows families to voluntarily notify the police about their special circumstances free of any charge.

The PAP will assist police departments to identify individuals who have special needs, which will enable the responding officer to have additional information at his/her disposal.
